

Colour Study using a circular design sent to us by Jean Horne, South Africa, 1999. The suggested threads are Mettler cotton or Güttermann cotton sewing threads such as blue 6800, green 8050, pink 5980, yellow 1370, dark blue 6290, or other threads, and DMC gold metallic or similar for the gimp. Ground: (CTCT, pin, CTCT or CT, pin CT).

Finished size: 4.5" x 4.5" (11.5 cm x 11.5 cm). See samples on the Canadian Lacemaker Gazette cover Vol. 15:4, Summer, 2001. The design can also be enlarged for a window decoration, 7.75" x 7.75" (20 cm x 20 cm). We hope you enjoy this lace project idea! CLG
